

Data sheet PP Tape Medium / High Tack

Product description

A polypropylene film with excellent clarity, abrasion resistance and lay flat characteristics. Its acrylic adhesive is designed for clean pick up and transfer performance on all brands of cast or calendered vinyl. The stable adhesive will not build in tack level when applied to vinyl graphics for extended periods of storage, therefore transfer is never a problem.

Features & Benefits

The new universal adhesive system is optimized to transfer the widest variety of pressure-sensitive vinyl films. Here are the most outstanding features of this film application tape:

- Universal high tack film for most sign applications.
- Well suited for transferring small computer cut copy films with fine detail.
- Static control for easier handling.
- Exceptional lay flat resists tunneling and edge curl on liners.
- Works well in wet applications with no adhesive residue.
- Superior clarity aids registration of multiple color overlays.
- Recommended for transferring vinyl films utilizing liners with tighter release.

Applications

- Universal application tape for wet and dry applications.
- Small, High Detail Cut Graphics
- Vinyl Films with Tight Liner Release
- Multiple Color Graphic Overlays
